Sir:

This is in response to the Office Action mailed April 7, 2004.

The Examiner has required election of one of the following inventions:

I. Group I - Claims 1-27, drawn to a message for processing synchronous
message at an asynchronous radio network and a method for processing a synchronous
message at an asynchronous mobile stations, or

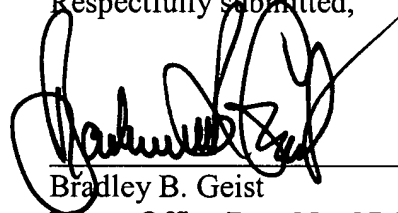

PATENT

II. Group II - Claims 28-47, drawn to a method for generating a system block an asynchronous mobile system comprising determining an operating type of the core network and establishing an effective area which includes a cell radius and a radius of a UMTS registration area.

Applicants hereby elect Group I - Claims 1 to 2.

In view of the above, an action on the merits is hereby respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Bradley B. Geist', is written over a horizontal line.
